I could gain an advantage in trade competition through this submission

No

The specific provisions of the proposed Plan Change that my submission relates to are as follows

Pc50

My submission is that

The community has not been consulted on this prior to wider feedback being requested. The information in the plan is not clear to understand to the majority of people. I would like to be heard, with an opportunity to to speak and ask questions, obtain answers in person. The impact on the infrastructure of the proposed plan Burkett farm development, is not stable for the kinds of trucks and earth moving machinery. The safety of our kids walking to and from the rural school bus stops is a concern. We moved out here understandably giving up living around a large development. It will destroy our bird song, roading and the tranquility the area provides. The increased traffic is a concern. Blue mountains hill has already seen a school bus hit by a large truck. The road is not suitable for large trucks at the best of times. I'd like to know if this is a tick box exercise where feedback is gathered or if our feedback will have an impact.

I seek the following decision from the local authority

For section 32, development of Whiteman's valley and blue mountains to not go ahead.

Please indicate whether you wish to be heard in support of your submission (tick appropriate box)

I do wish to be heard in support of my submission.

please indicate whether you wish to make a joint case at the hearing if others make a similar submission (tick appropriate box)

I do wish to make a joint case.
