Replanting

- Map of area where replanting is to be carried out (Regulation 78A)
- Proposed setbacks, including a description of how they were calculated (Regulation 78A)
- Wilding tree calculation sheet and score (Regulation 79)

Note: Notices must be submitted within the following timeframes:

- **Afforestation** - at least 20 working days and no more than 8 months before the planned commencement date.
- **Harvesting** - at least 20 and no more than 60 working days before the planned commencement date, or, in the case of harvesting for salvage operations, at least 2 days before such harvesting is planned to begin.
- **Forest quarrying** – at least 20 and no more than 60 working days before the planned commencement date, or, in a green or yellow erosion susceptibility zone at least 10 and no more than 20 working days before, or annually for ongoing activity.
- **Replanting** - at least 20 working days and no more than 8 months before the planned commencement date.

Is any clearance of indigenous vegetation proposed? (refer Regulation 93)

Yes

No

Please note:

- For the activity to be permitted it must comply with all applicable permitted activity conditions in the NES-CF, including those relating to ancillary indigenous and non-indigenous vegetation clearance, and the general provisions relating to noise, vibration, dust, and indigenous bird nesting.
- The Council may charge for the monitoring of permitted activities in accordance with Regulation 106

Declaration of Permitted Activity Notifier

I/We the undersigned acknowledge that the permitted activity is to be held in my/our name as described above and accept liability for all charges associated with the monitoring of this permitted activity.
